

# About

## Who we are

Wilderness Bookings is a listing platform that provides our clients with a targeted audience of users looking at targeted safari destinations. We are also unbiased and we offer our users to get in contact with you directly. Time to stop losing money and start getting direct bookings.

We have a huge selection of domains. Some are live and some are in process. Some are new and some are old (but becoming new websites). All the websites will be inter-linked and will show other destination properties from the filter section.
